# Social Spotlight

As a part of the rewards and recognitions policy, we have initiated the amazing categories to felicitate our colleagues who are always a step ahead when it comes to promoting the organization on various social media platforms.

In order to celebrate such silent contributors, we started the category Social Spotlight from the month of May 2023. Every month we will recognize such efforts through their social media activity and we will announce the winner in the subsequent monthly meets. The winners will be felicitated in the Annual Meet.

For this month, let's put our hands together and give a huge round of applause to **Udayabhanu Das**.

Congratulations to you.

# Case Study on Super Discount

## Overview

The project is about creating a platform for finding and sharing different offers from shops and malls. The platform can be used on web and mobile devices. Users can post and see discounts, promotions, and special deals in various places. The app also sends personalised notifications and has a complete database of current deals. The app makes shopping easy and enjoyable, connecting users with the latest offers at their fingertips.

## Client Details

Name: **Confidential**

Location: **USA**

Industry : **Classified App**

## Technology

PHP, MySQL, Laravel, Java,  
Ionic, Angular

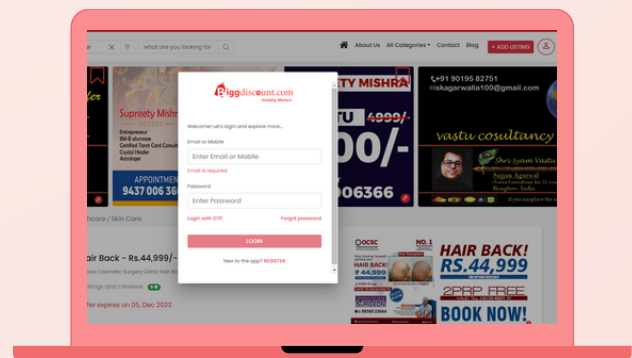

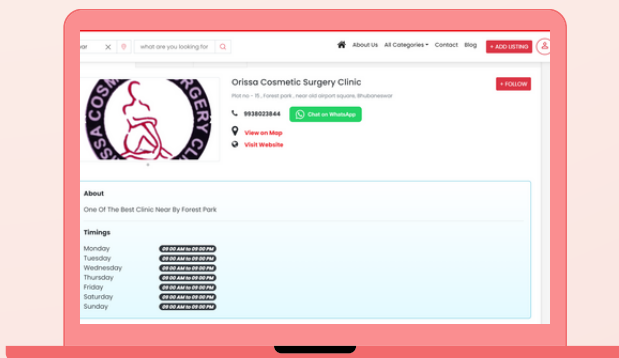

# Project Feature View

The website and app contain Homepage, Top banner, Trendy post, and Video banner.

- **Homepage:** The Homepage is the main page where users can explore Mall Offers and get more information about each shop.
- **Top Banner:** The Top eye catchy Banner is a moving slider that shows the best offers, promotions, and exclusive deals on the homepage.
- **Trendy Post:** The Trendy Post section gives users more details about the shops, such as their addresses and shop numbers.
- **Video Banner:** The Video section adds a fun and lively element to the platform by showing interesting offers video content in a slider format.
